GUIDE TO LOW EMISSIONS HEAVY VEHICLE FUND (LEHVF)

WHAT IS IT?

You could receive a grant of 25% of the purchase price of electric light trucks, capped at \$35,000 per truck. The grant covers the cab chassis (not fit out).

The Government's Low Emissions Heavy Vehicle Fund (LEHVF) aims to increase the number of zero and low-emissions heavy vehicles on New Zealand's roads.

The fund is being administered by EECA (The Energy Efficiency and Conservation Authority), a New Zealand government agency established to promote energy efficiency, conservation, and the use of renewable energy sources.

Grants are allocated on a 'first in, first served' basis.

EECA, which is administering the fund, has approved JAC as a supplier of LEHVF-approved vehicles

EECA

TE TARI TIAKI PŪNGAO
ENERGY EFFICIENCY & CONSERVATION AUTHORITY

This funding is open to all NZ-based and NZ-registered legal entities, except: Public Service Departments, Non-Public Service Departments (such as the NZ Defence Force) and Statutory Crown Entities.

For clarity, the following types of organisations are eligible to submit Proposals: State-owned Enterprises, Local Councils and Regional Councils.

More info can be seen on the EECA website:

eeca.govt.nz/co-funding-and-support/products/low-emissions-heavy-vehicle-fund

HOW TO APPLY?

- 1** Get in touch with the JAC team to organise a quote for your JAC Electric Truck. JAC will apply the EECA grant discount.
- 2** Confirm your truck with JAC, you will only pay the amount with the \$35,000 grant already applied*
- 3** JAC will complete the Customer Application form, this will be emailed to you and you only have to fill in the second half of the form.
- 4** Enjoy the sweet-sweet Zero Emissions and \$ saving trucking!

This document is a guide only - info may change, please refer to [EECA.govt.nz](https://eeca.govt.nz) for more info and details, or chat to your JAC team.
